Mariya S John (Introduction and conclusion) Sneha K Mohan

Anagha A V

Hyfa Marjan

Aswathy Nath

**Date:**

21th March, 2021 (Thursday)

## **Online banking**

Also known as internet banking, web banking or home banking, is an electronic payment system that enables customers of a bank or other financial institution to conduct a range of financial transactions through the financial institution's website. The online banking system will typically connect to or be part of the core banking system operated by a bank to provide customers access to banking services in place of traditional branch banking

Contents derived during the webinar

## **Paytm**

A partial abbreviation for "pay through mobile" is an Indian multinational technology company that specializes in digital payment system, e-commerce and finance, based in Noida. Paytm is currently available in 11 Indian languages and offers online use-cases like mobile recharges, utility bill payments, travel, movies, and events bookings as well as in-store payments at grocery stores, fruits and vegetable shops, restaurants, king, tolls, pharmacies

## **Google Pay**

(stylized as G Pay: formerly Android Pay) is a digital wallet platform and online payment system developed by Google to power in-app, online, and in-person contactless purchases on mobile devices, enabling users to make payments with Android phones, tablets, or watches

## **YONO**

(You Only Need One) is an integrated digital banking platform offered by State Bank of India (SBI) to enable users to access a variety of financial and other services such as flight, train, bus and taxi bookings, online shopping, or medical bill payments. YONO is offered as a smart phone app for both Android and iOS.
