## Cleaning Program at Institute of Palliative medicine

Institute of Palliative Medicine (IPM) is the pioneer of the palliative care movement in South East Asia. IPM is instrumental in developing the “Kerala Model” of palliative care which is popular among the palliative care fraternity worldwide. IPM is the training, research and outreach arm of Pain and Palliative Care Society (PPCS). It is located in the Medical College campus, Kozhikode, Kerala, Today NSS volunteers of **Providence Womens College unit number 15&116** went to IPM for cleaning purposes. Six of our volunteers including both first years and second years cleaned the designated area. They started their work at 10 am and ended at 3pm. They have worked hard even in contrasting situations so that they can provide a better atmosphere there. Our nss volunteers are also planning another program at IPM. IPM tries to improve the quality of life of non-curable and long-term bedridden patients by decreasing the symptoms and addressing their other associated problems.
