## **UNNAT BHARAT ABHIYAN SURVEY**

The NSS units conducted a survey in connection with the Unnath Bharath Abhiyan on Nov 13 Saturday. The aim of the survey was to gather information from 4 panchayats on different aspects. A total of 100 volunteer were divided into 4 groups with 25 each and we're send to take the survey as morning batch and afternoon batch. The morning batch went to vengheri panchayat and kuruvatoor panchayat and completed their survey by noon and reached the college. The afternoon batch reached directly to the college and both the batches had a scrumptious lunch provided by the college. Later the afternoon batch went to kunnamanghalam and kakkodi panchayat. Each group was further divided into team of two and thus each team of two volunteers had to cover a minimum of 10 houses. All the teams successfully completed collecting data and some teams could even cover more than minimum of houses.

The survey was a new experience for all the volunteers. Going to an unknown place, interacting with unknown peoples and getting to know different questions and its responses from them as part of the survey made it interesting as well. Also all the respondents were co-operating well with the volunteers and none had any difficulty in completing the survey. All the teams successfully completed the survey within in time and it gave a confidence to all the volunteers alike to take up surveys like this in the future.
