AQAR 2021-2022

2.3.1

Student centric methods, such as experiential learning, participative learning and problem-solving methodologies used for enhancing learning experiences

2.3.1 Student centric methods, such as experiential learning, participative learning and problem-solving methodologies used for enhancing learning experiences 2021-22

The college follows student centric learning method where students equally participate in the learning process. Departments devise ways and means of incorporating Total Participation Techniques (TPT) for the subject. These include: projects, field visits, seminars, invited-lectures, visit to research institution, project-presentations, assignments, internships, exhibitions, fests, debates, writing prequels to plays, case studies, role plays, hands on training, panel discussions etc. Students visit centres of research and excellence and are guided to participate in summer schools, and paper presentation. The curricular aspects are enhanced by the involvement of the students in the activities of various clubs by engaging them in interdisciplinary programmes and give an edge in cross cutting issues like environmental studies, gender studies and human rights issues.

Experiential Learning

1. *Paryavarna*: Field visits, visits to Herbaria and research stations
2. Demonstrations and Project works
3. Management fest
4. *Srishti*: Innovations and Entrepreneurship Development cell motivate students on nurturing their innovative ideas.

A
CONVERSATION
WITH
CHINNETTAN
(Farmer, Ramanattukara)

Interview with farmer

Department of Economics:
Students were asked to conduct case studies as an experiential learning method that will provokes student thinking and analytical capabilities. Students conducted face to face interview with farmers to understand problems faced, financial support and liabilities.

11.Minutes Paper: After each class an open-ended question related to the concept taught or to summarize the concepts learned with their feedbacks.

In today's session, our teacher, miss. Rashmi R explained about pricing strategies and it's various types. Market skimming pricing, market penetration pricing, policy, product mix pricing strategies, captive product pricing, product bundle pricing, two part pricing etc were briefly explained in the class. Rather than just explaining the topic, she asked the students to thoroughly comprehend the topic and describe it in their own words which makes it easier to revise it.

Dept. of Business Administration

FORMATION OF A COMPANY

Company formation is the process of incorporating or registering a business in the form of a limited company.

When a company is registered, it becomes a separate legal entity. A person that is completely distinct from its owners and responsible for its own finances, assets and liabilities.

The process of formation of a company consists of distinct stages

- Promotion Stage
- Selection of Name
- Incorporation and Registration
- Raising the Share Capital Stage.

Forward & Future

Forward

- is an agreement between parties to buy & sell an asset at a future date at price agreed today -
- is an agreement made today to exchange the commodity or entitlement for cash at a predetermined future date at a price agreed upon today.
- The transfer of ownership occurs on the spot.

Features

- It is bilateral contract
- They are customized
- It is a private contract
- It is a zero sum game.
- It is a ideal tool for hedging risks

Future

- is an agreement for buyer and seller to buy or sell an asset at a certain time in future at a certain price
- Traded on a regulated stock exchange.
- Future contract provide both a right & an obligation

Features

- Futures are traded on the floor of an organized exchange
- There is clearing house for each future exchange
- There is a Margin System.
- There is no counter party risk in futures.

Mostly discussed pricing strategies was

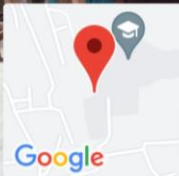

taught by Rashmi maam. When she explained each heads under pricing strategies maam explained clearly Market skimming pricing, captive product pricing and product bundle pricing. Maam gave some capsule notes which we easily understood. When she then after on how she wrapped the class.

Dynamic Programming:
 It is used to solve optimization problems.
 Steps of Dynamic Programming:
 Step 1: Break down the complex problem into smaller sub-problems.
 Step 2: Find optimal solution for these sub-problems.
 Step 3: Store the results of sub-problems.
 Step 4: Reuse them as they solve sub-problems to find solution for main problem.
 Step 5: Finally calculate the result of the complex problem.

Longest Common Subsequence:
 X = abcbabc
 Y = bcbcbcb
 L = 5

Flow's algorithm Complexity:
 * The first line is algorithm take $O(n^2)$ time.
 * The first for loop takes $O(n)$ times.
 * The second for loop takes $O(n)$ time.
 * The inner for loop takes $O(n^2)$ times.
 * So the complexity of whole algorithm is $O(n^3)$.

Principal's Message

Dr. (Sr.) Jaseena Joseph

Principle conveyed her heartfelt wishes and congratulated the students and Head of Department Mrs. Aleena Joy for their efforts in celebrating International Mother Language Day. She also spoke about the importance of mother tongue and current situations prevailing in the society with regards to language.

#TeamHRM

OUR APPROACH.

As part of
International
Mother Language
day our team came
up with a unique
idea of connecting
with the world.

International Mother Language Day is a worldwide annual observance held on 21 February to promote awareness of linguistic and cultural diversity and to promote multilingualism. First announced by UNESCO on 17 November 1999, it was formally recognized by the United Nations General Assembly with the adoption of UN resolution 56/262 in 2002. Mother Language Day is part of a broader initiative "to promote the preservation and protection of all languages used by peoples of the world" as adopted by the UN General Assembly on 16 May 2007 in UN resolution 61/266,[3] which also established 2008 as the International Year of Languages.

The idea of connecting with the world was bought to vision by our department. We reached out and collaborated with people living in different corners of the world.

It was indeed our pleasure to have bought this idea and experiencing a bond where the only thing different is language.

People from all parts of the world sent wishes for our college, Providence Women's College and congratulated our department for the effort taken for the one week long celebration of International Mother Language Day from 17.02.2022 - 21.02.2022.

International Mother Language Day recognizes that languages and multilingualism can advance inclusion, and the Sustainable Development Goals focus on leaving no one behind.

OUTCOME

Our celebrations started from 17.02.2022 onwards. As Human Resource Management students this was a golden opportunity for us to connect to the rest of the world to establish a bond and knowing different cultures.

Efforts were made from our part to try our best in order to promote linguistic diversity. We were able to extend the international collaborations to countries including Saudi Arabia, Malaysia etc. for the video where people said, "My Language, My Pride" very proudly in their native language.

Though a small step the experience and lesson we received, that of team work, diversity and bond is beyond words and definitely huge.

#TeamHRM

OUR GOAL

UNESCO chooses a theme for each International Mother Language Day, and sponsors related events at its Paris headquarters. In 2008, the International Year of Languages began on International Mother Language Day. It is celebrated in Chile, Russia, the Philippines, Egypt and Canada.

As part of Digital India initiative, digitized content will be made available in the country's 22 scheduled languages and extended to India's other 234 recognized languages. Digitization began in June 2016 through the Bharatavani Project at the Central Institute of Indian Languages in Mysore, and by February 2017 content in 60 Indian languages had been made available free of charge.

Finally, all we have to say is

**"MY LANGUAGE ,
MY PRIDE."**
