REPORT OF THE SEMINAR ON 'IPR and Plant Varieties

The sixth seminar of the IPR webinar series, organised by the Department of Botany was conducted on 27 January 2022 at 11.00 am. The seminar was on IPR and Plant varieties. Ms. Theertha MD was the resource person. 58 students from the Department of Botany attended the seminar. A detailed account plant varieties and methods to protect them was given during the session. Plant variety protection, also called a “plant breeder's right,” is a form of intellectual property right granted to the breeder of a new plant variety in relation to certain acts concerning the exploitation of the protected variety which require the prior authorization of the breeder. The programme came to an end at 3.00 pm.
