

Action Taken Report Based on Alumni Feedback

The following were the actions taken/planned in regard to various issues addressed in the alumni feedback to help drive institutional improvement.

1. Academic Excellence

There were suggestions to improve isolated areas in the syllabus. Thorough curriculum reviews were conducted to incorporate industry inputs and align with current trends.

2. Skill Development

Need for more opportunities to enhance critical thinking, communication, and teamwork was one major suggestion. It was decided to introduce many more workshops, certification programs, and soft skills training as part of the curriculum.

3. Value-based Education System

The value education system of the college was very well appreciated but there were also suggestions to enhance practical application of values to address real-life challenges. The value based modules were modified to include interactive sessions with professionals.

4. Experiential Learning

Opportunities for practical learning needed enhancement as per some Alumni. It was planned to increase project-based learning and internships partnered with industries for hands-on experiences.
