

## **Action Taken Report on Feedback of Teachers**

Based on the feedback provided by the students regarding the teaching and department practices at Providence Women's College, the following actions are planned or implemented to address the identified areas of improvement:

### **Enhancing Practical Exposure:**

Action: Steps shall be taken to increase hands-on learning opportunities by introducing more practical sessions, fieldwork, and experiential learning components across all courses collaborating with industries and research institutions.

### **Strengthening Career and Research Guidance:**

Action: Additional workshops, seminars, and sessions with career experts and researchers will be organized to help students stay updated on recent trends and opportunities.

### **Expanding Opportunities for Skill Development:**

Action: Additional certificate courses, skill-building workshops, and MOOC programs will be integrated to address the students' demand for more learning opportunities partnering with online learning platforms and external experts to offer diverse courses.
