A one-day seminar titled “Navigating Through the Research Landscape for Sustainable Living” was held on 9 October 2023, jointly organized by the IQAC and the R&D Cell. The event was inaugurated by Chief Guest Mohammed Riyaz from NABARD, who emphasized the significance of research in achieving

sustainability. Mr. Babu Parambath delivered a speech on plastic pollution. The seminar commenced with Session 1, where Ph.D. scholars Abidha E K and Fathima Rafieah delivered insightful presentations on effective research writing and the use of Mendeley reference management tools. 132 students were participated and benefitted through this seminar.

Session 2, led by postgraduate students, focused on intellectual property rights (IPR), shedding light on the importance of protecting innovative ideas and research outputs in genetically modified organisms, ethics and bio-safety. The final session addressed pressing ecological issues, encouraging participants to deliberate on practical solutions for sustainable living. Each session fostered active engagement, with participants raising thought-provoking questions and sharing perspectives. The event provided a platform for interdisciplinary learning, equipping attendees with essential tools for impactful research. It successfully emphasized the connection between research, innovation, and sustainability. The seminar concluded on a high note, inspiring participants to contribute to a sustainable future through informed research and practices.

One Day National Seminar - Navigology
 Organized jointly with IQAC and R & D cell
