

## DEPARTMENT OF BOTANY EXTENSION ACTIVITY - 6

Provi P QR Project: Campus Tree Identification and Labelling at  
GHSS Medical College Campus, Kozhikode and at WMO College, Muttill,  
Wayanad

### Report - Provi P QR Project: Campus Tree Identification and Labelling - January 2024

#### Objective:

The "Provi P QR" project aims to identify and label campus trees with boards carrying QR codes to enhance students' knowledge about plant biodiversity and promote conservation awareness.

Number of Participants: 35 students

#### Key Activities:

#### GHSS Medical College Campus, Kozhikode

1. Identified and labeled campus trees with QR-coded boards.

2. The QR codes link to detailed information about each tree species, enriching botanical knowledge and encouraging conservation efforts.

**WMO College, Muttil, Wayanad:**

1. Identified campus trees.
2. Provided technical assistance for generating QR codes, facilitating the future installation of informational boards.

**Impact:**

The project fosters environmental stewardship by promoting botanical literacy among students. It also serves as a valuable educational resource, turning campuses into interactive learning spaces as well as encourage the medical College students to conserve the Biodiversity.
