

REPORT

Activity: volunteering Pain and Palliative care society

No of student participated: 8

Date: 03/03/24

As a part of Departmental extension and outreach program third year Psychology students (8 students) visited the institute of pain and palliative care 03/03/24, and provided their services there. The students provided services in documentation, cloth collection, and fund raising for the chronic patients. All these services help the students to develop better social commitment and social intelligence. Apart from academic activities this kind of extension activities are necessary for the holistic development of students. That's why Department organize many extension programs in each year.
