✚ Department conducted an impactful international workshop on “Mental Health Literacy,” held in collaboration with DeMont Fort University UK from

4 March to 7 March 2024. Led by Prof.Raghu Raghavan, the workshop focused on enhancing mental health literacy and awareness among participants. Thirty students and six teachers actively participated in interactive sessions, equipping themselves with essential knowledge and skills to tackle mental health challenges within their communities. This collaborative effort fostered understanding and empathy, empowering individuals to become advocates for mental well-being and champions of support for those in need.

Dr. Shinoj Jesintha, Assistant Professor and Head, Department of History, Malabar Christian College, Kozhikode, delivered a talk on the topic 'The Art and Craft of History: Some Methodological Issues'.

Dr. Shinoj gave students an idea about how to select a topic for their Degree project. He elaborated on the methodological procedures of finding out the veracity of the sources collected for the research, and also about, primary, secondary and hybrid sources. The importance of foot notes, end notes in a research paper also discussed. Students were also given an idea about how to fill the research gaps.

Final year students actively participated in the <sup>discussion</sup> ~~department~~ and cleared their doubts. First year and final year students attended the talk. Ms. Shahanaul of Third year History welcomed the gathering. Ms. Ranna, Association Secretary introduced the guest. Ms. Minnath Naufal of first year History proposed Vote of Thanks. The session came to an end by 12.35 p.m.

As part of Prof. M.P. Sreedharan Birth Centenary celebration Department of History conducted a national ~~lecture~~ seminar on 14.11.2023 at Carmel Hall, Providence Women's College.

The Programme started with a prayer and Shadiya K.C. of II nd year History delivered welcome speech. Dr. Susmitha Ramakrishnan, Head Dept. of History presided over the session. B.Ms. Bindu Amat, (Retd). Former Head of the Dept. of English, Providence Women's College gave an introductory talk on the contributions made by ~~the~~ of Prof. M.P. Sreedharan in the field of History as well as a history teacher.

Dr. Seerjith K, Associate Professor, Abdul Kalam Govt. College, Kolkata, delivered the Memorial lecture. He spoke on the topic 'Middle class in Colonial Malabar'. How the changes ~~to~~ and the administrative reforms introduced by the colonial government in Malabar contributed for the development of new Middle class was discussed. And he also elaborated on the sources from which he had taken data. Dr. Vasishth, former Head of the Dept. of History, Malabar Christian College also participated in discussion.

Nandana Manoj of Second year history proposed the vote of Thanks.

Dr. Oliver Noon, a Medical practitioner, Kozhikode, delivered a talk on the topic 'The Forgotten Battles of Calicut 1503 and 1790 - Strategy, Tactics and Geopolitics' on 16.11.2023 at 10.30 am at M.V. Hall.

The talk was mainly related to the book published by Dr. Oliver Noon with the same title. He explained the geopolitical significance of two battles that took place in Calicut. The first was a sea battle fought between the Portuguese led by Vasco Da Gama and an Indo Arab naval force under the King Zamorin of Calicut in 1503. The second was a land battle that came about in 1790 between the army of East India Company and the army of Tipu Sultan. The photographs of various armaments used during these wars and the war technology used and the primary documents made the talk very interesting. The graphical representation of the changing geo-political scenario made the talk very informative.

Fathima Shadiya of II year History welcomed the gathering and Senthil C.K of I History proposed the vote of thanks.

28 Elocution Competition on 29/11/2023 at M.V. Hall  
at 1:30 pm

**DEPARTMENT OF HISTORY  
PROVIDENCE WOMEN'S COLLEGE, CALICUT**

**In Association with**

**Senior Chamber International  
CALICUT LEGION**

**ELOCUTION  
COMPETITION**

**For College Students**

**Mr. Csl. Prof. Varghese Vaidyan  
National President**

**MV Hall**

**29/11/2023, Wednesday**

**1:30PM**

In Association with the Senior Chamber International Calicut Legion, the Department of History conducted an elocution competition for the College students on 29<sup>th</sup> November 2023 at M.V. Hall at 1.30 pm.

Students from various departments of the college participated in the elocution competition. There were altogether seven participants. The following are students participated:

1. Aspika Ajith - III Economics
2. Nisni - I Psychology
3. Saadha Rose - I Maths
4. Namatha - I Physics
5. Fathima Zoha - I Economics
6. Revathi Narayanan Nambiar - III Economics
7. Sr. Divya Vijayan - II Maths.

Topic for elocution was 'Democracy and its challenges in the present Scenario'.

The students who won the prizes are

- I Prize - Revathi Narayanan Nambiar - III Economics  
 II Prize - Sr. Divya Vijayan, II Maths  
 III Prize - Nisni, I Psychology

Revathi Narayanan Nambiar selected for the District level competition.

Asso. Prof. & Head, Dept. of History

The Heritage walk in Calicut was conducted under the guidance of Dr. Ajmal Muneer, the Head of the Dept. of History of MAMO College, Muckkoms. It was jointly co-ordinated by Dr. Susmitha Ramakrishnan, Head of the Dept. of History, Providence Women's College. ~~The~~ It was an activity undertaken as part of the Memorandum of Understanding entered into by the history dept. of Providence women's College and MAMO college.

The walk started at 9.30 am from Muckkoti Mosque, Kuttichira, the place from where the Muckkoti Inscription was localised. The group then moved to a traditional home at Kuttichira, the Jiffey House, Kuttichira Jama Masjid, Kuttichira pond, the ~~Mickal~~ Miskal Masjid, Cunjari street, Designs Ashramam, Zaina Complex of Bara Muslims, Saba Masjid, Big Bazar, Cunni street, Mother of Dom Cathedral and 5m street.

The walk almost covered all the heritage places in Kozhikode city imparting students the rich cultural heritage and multi cultural practices of Kozhikode.

Dr. Vincent P. J., Professor and Head, Department of History, Govt. Arts and Science College, Meenchantha. Formerly Press Secretary to Honorable Speaker, Kerala Legislature and Controller of Examinations, Kanara University delivered the inaugural address after inaugurating the History Association 2023-24. He spoke on the topic Ballads and History.

Ms. Shahanaimal welcomed the gathering. Ranna N.K., Association ~~Secretary~~ Secretary, Dept. of History presented the report of the activities of the department for the academic year.

While delivering inaugural address Dr. P.J. Vincent spoke about the features of the oral traditions of Kerala. He contended that Folk ballads in Malayalam have not received attention from Modern scholars. The existing researches and the major works written completely on the basis of Brahmanical sources. According to him, that is the reason why we don't get much information the indigenous knowledge system of the land. The history thus written gives only a partial history and it is high time that we must change this. He also advised students the significance of exploring these oral traditions. and also gave them an orientation about the methodology ~~logy~~ to be followed writing history on the basis of <sup>oral</sup> folk traditions.

Department of History in association with the Career Guidance Cell of the College conducted a talk on "Mapping the Past: Unveiling Historical Mysteries with GIS Technology". The talk was delivered by Ms. Pyary Hasna Mehlāb, Registered Patent Officer.

Ms. Pyary gave students an orientation on Intellectual Property Rights in India. The various aspects like Copyright, Patent, trademark etc were discussed. She gave students an orientation about tangible and non tangible assets.

The second part of the talk was specifically about Geographical Indications. Ms. Pyary gave students an idea about different products of Kerala which were registered under Geographical Indicators. And how students can innovate in activities to achieve geographical Indication tag for such products. She also gave them an orientation about the start-up that can be started using such knowledge.

The talk was largely interactive. Students cleared their doubts regarding copyright and Patents.

Mrs. Ranna, Association Secretary welcomed the gathering, Ms. Minnath Noufal, First history student proposed the vote of thanks. The talk came to an end by  
12.00 pm

Department of History and Department of Politics and International Relations jointly organized 'Neta's Gallery' on 29<sup>th</sup> February and 1<sup>st</sup> March 2024 at A.V. Room. It was an exhibition of Books on Politicians of Independent India. And the exhibition was arranged by Professor Vasishth M.C., Former Head of the Department of History, Malabar Christian College, Kozhikode -

Ms. Ambili Thomas, Head, Department of PIR welcomed the gathering during the inaugural session on 29<sup>th</sup> February at 10 am. Vice Principal, Dr. Sr. Sheeba Andrews delivered

the presidential address. Dr. Beena Philip, Respectful Mayor of Kozhikode inaugurated the book exhibition. In her inaugural speech, Mayor congratulated the departments for conducting such a book exhibition on the autobiographies and biographies of national leaders of India, especially during this occasion as the country gears up for the Lok Sabha elections in April 2024. She also emphasized the importance of students receiving political education.

Mr. Firoz Khan, President Calicut Press Club and Professor Sreekumari, <sup>Head</sup> ~~off~~ of the Department of Malayalam offered felicitations. Ms. Rama NK Association Secretary, of the Department of History proposed vote of thanks. The programme came to an end by 11.30 am.

Students and faculty members <sup>from</sup> other departments of the College visited the exhibition. And the exhibition continued for two days from 29<sup>th</sup> February and 1<sup>st</sup> March 2024.

## ONE-DAY WORKSHOP ON HARDWARE ASSEMBLING AND TROUBLE SHOOTING

As part of the DBT Star College Scheme, the Department of Computer Science generously funded and hosted a skill development training session on “**HARDWARE ASSEMBLING AND TROUBLESHOOTING**” for first and second-year students on November 27, 2023, at 1:30 pm in the Computer Lab. The resource person for this workshop was Mr. Abdul Karim, Microsoft Certified System Administrator, Aamiz Institute of Technology, Calicut. Around 75 students participated in this workshop. At the end of the workshop, they were able to assemble computer hardware, troubleshoot hardware problems, install operating systems, understand virtualization, and know the latest configuration of a computer system.

### Report on paper bag making workshops conducted during 2023-24

The Energy and Environment Club of the Department of Chemistry is dedicated to promoting sustainable practices and reducing environmental impact. The club organised a paper bag making workshop to raise awareness about the harmful effects of plastic bags and encourage the use of eco-friendly alternatives. A step-by-step demonstration was conducted to showcase the simple process of creating paper bags using readily available materials like brown paper, glue, and string. Participants were provided with necessary materials to create their own paper bags and all of them successfully made one. The workshop was conducted on 06-06-2023 for second year B.Sc. Chemistry students and on 18-01-2024 for first year B.Sc. Chemistry students. The brochures, photographs and attendance are attached.

## Department of Chemistry

### Biweekly Powerpoint Presentation by Students 2023-24

Biweekly power point presentation on recent trends in Chemistry was organized by the Department of Chemistry in order to improve the knowledge, language and communication skill of students. Students from different batches presented various topics. At the end of each presentation, there was a session for discussion. The list of students presented and the titles of their talks, brochures, photographs and participants list are attached.

SI. No.	Date of the event	Name of the Student	Class of Study	Title of the Talk
1	09/06/2023	Fathima Shirin K K	II Chemistry	Climate Change and its Impacts
2	17/08/2023	Chandana C	II Chemistry	Chemistry of Toothpaste
3	23/08/2023	Nandana K	II Chemistry	Chemistry of Cosmetics
		Isha Ferbin K M	II Chemistry	
4	15/11/2023	Anjoom Fairuza P	II Chemistry	Pharmaceutical Chemistry
		Safia K	II Chemistry	
5	17/01/2024	Anjalikrishna T	III Chemistry	Nobel Prize in Chemistry 2023
		Ayisha Liba T K	III Chemistry	
6	21/02/2024	Shahala A K	II Chemistry	Retort Packaging: Ready to Cook?
		Devananda M	II Chemistry	
7	21/02/2024	Prarthana Puthussery	I Chemistry	Graphene
		Neha Manoharan	I Chemistry

## **Department of Chemistry, Providence Women's College**

### **Workshop**

#### **Scientific Writing and Presentation**

#### **(Under DBT STAR College Scheme)**

A workshop on Scientific Writing and Presentation was organized for the undergraduate students of chemistry at Providence Women's College, Calicut on 09-10-2023, under DBT STAR college scheme. The programme constituted two sessions. The session 1 was on scientific writing and session 2 was about presentation skills. The sessions were handled by Dr. Prasanth M (Librarian, Providence Women's College, Calicut) The workshop provided participants with a deeper understanding about the literature searching databases such as Google scholar, SciFinder, Web of science, PubMed, INFLIBNET etc.,. Publishing of articles, selection of journals, peer reviewing, and the tips for mastering presentation skills were also discussed. The talk was informative, engaging, and highly relevant for researchers and students alike. The speaker's expertise and practical advice were invaluable. Fifty three students from department of Chemistry attended the function.

**Department of Chemistry, Providence Women's College**  
**Two-day hands-on workshop on molecular modelling and drug designing software**

(Under DBT STAR college scheme)

**Resource Persons:** Kavya C S, Hariprasad C. K., SERAH ZINES LLP, Kozhikode.  
(Incubated at AIC-SEED Foundation, IISER Pune, Maharashtra)

**No. of Participants:** 40

Computerized techniques for molecular visualization and 3D simulations plays an important role in the training portfolios of students learning chemistry. In order to promote the conceptual understanding and spatial ability of students, it is essential to use dynamic tools and visual representations of interactions between individual atoms and molecules. Students' understanding of many unobservable phenomena could be enhanced when computerized molecular models, simulations, and animations are integrated into the teaching -learning process.

#### WORKSHOP CONTENTS

- Back ground of molecular modelling and drug biomolecular interactions
- Create and edit 3D molecular structures using Avogadro
- Measurement of bond length, bond angles and dihedral angles
- Create and visualize atomic and molecular orbitals
- Generate the animations for various symmetry operations
- Understand crystal structure and unit cell parameters
- Understand structure of proteins and enzymes using JMOL
- Generate GIF files and incorporate in powerpoint

#### RESOURCE PERSON

**Kavya C S**  
**Hariprasad C. K.**

SERAH ZINES LLP, Kozhikode.  
(Incubated at AIC-SEED Foundation,  
IISER Pune, Maharashtra)

#### Objectives of the Workshop

- **Improve Practical Skills:** Enhance the practical skills through hands-on experience in molecular modeling.
- **Broaden Foundational Skills:** Expand the foundational skills in the field of molecular modeling and drug designing software.
- **Introduce to Diverse Research Opportunities:** Familiarize with various research opportunities in the domain of molecular modeling and drug design.
- **Enable Visualization of Complex Molecular Structures:** Equip students with the ability to visualize and comprehend intricate molecular structures.
- **Facilitate Deeper Understanding of Chemical Principles:** Foster a deeper understanding of chemical principles and molecular bonding through practical applications

Under DBT STAR COLLEGE Scheme  
**Two Day Hands-on Workshop**  
**Molecular Modelling and**  
**Drug Designing Software**

**14, 22 February 2024**  
**Cheminformatics Lab**

Department of Chemistry  
Providence Women's College,  
Kozhikode 673009, Kerala  
[www.providencecollegecalicut.ac.in](http://www.providencecollegecalicut.ac.in)

Department of Chemistry, Providence Women's College, Calicut, conducted a two-day hands-on workshop to develop skills and expertise of undergraduate chemistry students. The 2-day workshop on 'Molecular modelling and drug designing software' was successfully conducted on 14/02/24 and 22/02/24. The workshop aimed at motivating students and improving their attitude toward science in general, and toward chemistry in particular. The objective of the

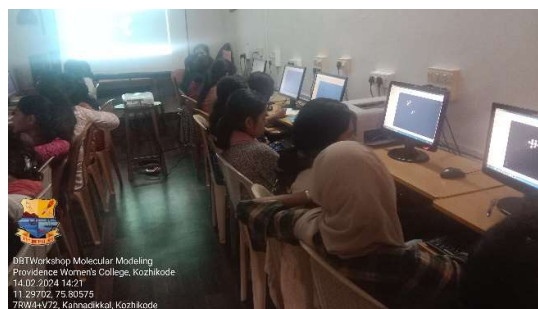

workshop is to develop skills in molecular dynamics and to enrich skills in structural and spatial analysis. The workshop was specially crafted to improvise the practical skills of the students by providing a hands-on experience on molecular visualization and three-dimensional simulation in general, and the 'Avogadro' program in particular. The course is expected to broaden the foundational knowledge and introduce the students to diverse research opportunities. The course would further enable the students visualize and understand complex molecular structures; thus, facilitating a deeper comprehension of chemical principles and molecular bonding.

**Day 1:** The session started with an informal introduction of the resource speakers to the participants by Dr. Deepthi Jose, Asst. Professor, Providence Women's College.

In the first session, Mr. Hari Prasad C. K. (Serah Zines LLP, Kozhikode) introduced the concept of Molecular Modelling to the participants. He further elaborated on Molecular descriptors, Coordinate System, Chemical structure formats, Molecular graphics, Potential energy surface etc. citing various examples. Session 2 started with a hands-on session on creating and editing 3D molecular structures using the molecule editor and visualizer 'Avogadro'. Visualization in Wireframe, Ball & Stick and Space fill models, creating molecules with different functional groups, optimization of molecules using molecular mechanics, prediction of molecular properties, exporting of molecules in different file formats were also explained in detail.

The afternoon session was handled by Ms. Kavya C. S. (Serah Zines LLP, Kozhikode) where she elaborated sessions on measurement of bond length, bond angles and dihedral angles; conformer Search, Hydrogen Bond, importing molecules by name, building with SMILES, Image rendering using 'Avogadro' were taken. Further, the hands-on session continued with Structure of protein, Understanding PDB file, introduction to Jmol, importing structures from Protein Data Bank, demonstration of interactive image of protein in Jmol, manipulation of images of a protein, usage of Jmol menus for the protein display, modification and display of hydrogen bonds.

Towards the concluding session, the students were segregated into groups and tasks were assigned for completion based on the learning they received from the session.

**Day 2:** The forenoon session was kicked off with a detailed session on 'Avogadro'. Building a Peptide, DNA & RNA, Carbon Nanotubes, Supercell, Polymer unit cell, viewing electrostatic potential maps etc were demonstrated. This was followed by a comprehensive session on 'Jmol'. Students were educated on visualization of atomic and molecular orbitals, geometric and conformational isomers, creation and visualization of animations for various symmetry operations, generation gif files, incorporation of Jmol in PowerPoint slides, introduction to drug databases and retrieval of drug molecules.

In the afternoon session, students were directed to present their assignment work; where they proudly exhibited the insights, they gained from the two-day workshop. The assignments were evaluated and feedback was provided.

Feedback/Conclusion: The students agreed that workshop was very helpful in good understanding of conceptual terms and visualisation of molecules. Many students indicated that learning chemistry with Avogadro and Jmol was extremely helpful, bringing the microscopic world of molecules closer to them. The integration of computerized techniques and modelling tools into traditional face-to-face instruction thus produced a better hybrid model of teaching-learning.

<b>Course Plan</b>		
<b>DAY I</b>	Session 1 9.30 am -10.30 am	Back ground of Molecular Modelling: Molecular descriptors, Coordinate System, Chemical Structure formats, Molecular graphics, Potential energy surface
	Session 2 10.45 am – 12.45 pm	Creating and editing 3D molecular structures using Avogadro; Visualization in Wireframe, Ball and Stick and Space fill models; Create molecules with different functional groups, optimize molecules using molecular mechanics, Predict molecular properties, Export molecules in different file formats.
	Session 3 1.30 pm – 3.00	Avogadro: Making Selections, Coloring Part of a Molecule, Measurement of bond length, bond angles and dihedral angles; Conformer Search, Hydrogen Bond, importing molecules by name, building with SMILES, Image rendering

	Session 4 3.15 – 4.45 pm	Structure of protein, Understanding PDB file, Jmol: Import structures from the Protein Data Bank, display an interactive image of the protein in Jmol, manipulate images of a protein with mouse, use the Jmol menus to change the way the protein is displayed, change the display style of selected parts of a protein, display hydrogen bonds.
<b>Assignment</b>		
Day 2	Session 1 9.30 am -10.30 am	Avogadro: Building a Peptide, DNA & RNA, Carbon Nanotubes, Supercell, Polymer unit cell, viewing electrostatic potential maps
	Session 2 10.45 am – 12.45 pm	Jmol: Visualizing atomic and molecular orbitals, geometric and conformational isomers
	Session 3 1.30 pm – 3.00	Create and visualize the animations for various symmetry operations, generating gif files, incorporate Jmol views in powerpoint slides, Introduction to different drug databases and retrieving structure of drug molecules
	Session 4 3.15 – 4.45 pm	Presentation and Assignment Evaluation

## Invoice with Cost Breakdown for the Workshop on molecular modelling and drug designing software

Dear Madam,

Greetings of the day.

This is to inform you that the total cost for the conduct of upcoming 12-hour workshop on molecular modelling and drug designing software for 40 students at Dept of Chemistry, Providence Women's College by SERAH ZINES LLP is Rs. 20,000/-. The workshop is aimed at improvising the practical skills of the students by providing a hands-on experience on molecular modelling. The course is expected to broaden the foundational skills and introduce the audience to diverse research opportunities. The course would further enable the students visualize and understand complex molecular structures thus facilitating a deeper comprehension of chemical principles and molecular bonding.

Kindly find below the detailed cost breakdown for the workshop which provide a clear understanding of how the fund is utilized for various components of the workshop.

1. Training Materials and Resources: Rs. 3500/-
2. Instructor Fees: Rs. 8000/- (4000 per day)
3. Software installation Costs: Rs. 5000/-
4. Contingency: Rs. 3500/-

**Total Cost: Rs. 20,000/-**

Account Name : SERAH ZINES LLP  
Account Number : 50200081990221  
Bank : HDFC Bank

## Department of Chemistry, Providence Women's College

### Industrial Training on Food Analysis

*SYNTHECIS, Institute of Chemical Industrial Training, Vadakara*

(Under DBT STAR College Scheme)

A group of 40 B. Sc. Chemistry students along with two lab assistants visited the food analysis lab, Synthecis, Vadakara for Industrial training on food analysis under DBT STAR college scheme on 14<sup>th</sup> and 17<sup>th</sup> February 2024. The visit is aimed at bridging the gap between industry and academia and to impart the students with an insight into the quality parameters practiced across various platforms of the food industry.

**Skill Development Program**

- Overview: Food industry
- Handling of chemicals
- Sampling of milk
- FSSAI testing methods
- Estimation of fat, solid not fat, titrable acidity and total solids
- Detection of adulteration of milk

**Under DBT STAR COLLEGE Scheme**

**INDUSTRIAL TRAINING ON FOOD ANALYSIS**

4 QUALITY EDUCATION

17 PARTNERSHIPS FOR THE GOALS

The session commenced with a lecture by the managing director Mr. Sherjil Abdulla on the various aspects of Chemistry. The talk stressed on the application of chemistry in daily life, opportunities for chemistry students in various industries such as pharmaceuticals, forensic labs, food analysis labs etc. The students were made aware of the importance of good laboratory practices and safe handling of chemicals. MSDS of various chemicals that are generally used in

the chemistry laboratory was discussed in detail. Fire safety lessons were provided, along with the demonstration of fire extinguisher.

The afternoon session was based on the food industry and specifically on the Quality analysis of milk. The lecture narrated various components of milk, sampling of milk, possible contaminants and adulterants. FSSAI testing methods for the estimation of starch, fat, total solids, titrable acidity etc. were explained in detail.

On the second day of the visit, the students were segregated into groups of 4 and hands-on training on previously discussed aspects were conducted. Students were introduced to Mojonnier type flasks for fat extraction. Two market samples (Eranad milk and Janatha milk) were given for analysis. Application and operation of laboratory equipment such as Flame photometer, pH Meter, Conductivity meter, Turbidity meter, Hot air oven etc. were also demonstrated. A quiz on basic chemistry and safe laboratory practices was conducted to evaluate the fundamental understanding of students. The brochure, photographs, sample certificate, syllabus and attendance list of the programme are attached.

Respected Madam,

Please find the syllabus for the Industrial Training programme for BSc chemistry Graduate students for your reference.

## Syllabus

### Introduction (5hour)

Scope of chemistry, Food industrial overview, Milk industry in India, Handling of Chemicals, Understanding of MSDS, Fire & Safety precautions, Chemical Hazard Symbols, Basic instrumentation techniques (UV-visible spectrophotometer, pH meter, Soxhlet apparatus, Mojonnier apparatus)

### Parameters and Methods (5hour)

Sampling of milk, Standard test method, Composition and nutritional value of milk and factors affecting composition of milk. FSSAI testing methods

### Practicals (10hour)

Estimation of fat, solid not fat (S.N.F), Titrable acidity and Total solids. Detection of adulteration of milk (Starch, NaCl, Neutralizer)

## One Day Workshop

### Quantum Mechanics

(Under DBT STAR College Scheme)

A one-day workshop on Quantum Mechanics was organized for the second-year undergraduate students of chemistry at Providence Women's College, Calicut on 23<sup>rd</sup> February under DBT STAR college scheme. The workshop provided participants with a deeper understanding of the transition from the macroscopic to the microscopic world. The sessions began with an exploration of wave-particle duality, connecting classical ideas with quantum principles and discussing the historical milestones that led to the development of quantum mechanics. This was followed by an introduction to the rules governing the quantum world, including the concept of superposition of states. Participants learned how quantum states differ fundamentally from classical states and explored the probabilistic nature of quantum measurements, which challenges deterministic views from traditional physics.

**ONE DAY WORKSHOP**  
Under DBT STAR COLLEGE Scheme  
23-02-24  
Room No. 12

**God Does Not Play Dice, But...**  
**Dr. Bijoy N**  
Post Doctoral Researcher

**WORKSHOP ON QUANTUM MECHANICS**  
Coordinator: Dr. Deepthi Jose

Department of Chemistry  
Providence Women's College,  
Kozhikode 673009, Kerala  
[www.providencecollegecalicut.ac.in](http://www.providencecollegecalicut.ac.in)

**Objectives of the Workshop**

- Reinforce basic understanding of core concepts covered in the regular curriculum.
- Explore the historical development of quantum mechanics.
- Identify and address common misconceptions.
- Interactive problem solving to reinforce the skills.
- Promote collaborative learning through group activities.

**Workshop Contents**

- Transition from macroscopic world to microscopic world
- Wave particle duality and historical development of quantum mechanics
- Rules of quantum world and superposition of states
- Probabilistic measurement of quantum states
- Mastering quantum operators
- Quantization of energy

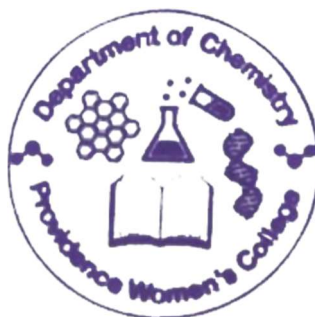

Logos: Providence Women's College, LEGAME, 4 QUALITY EDUCATION, and others.

In addition, the workshop introduced participants to quantum operators and the concept of quantized energy levels, which are essential for mastering more advanced topics in quantum mechanics. Through interactive problem-solving exercises, students practiced applying quantum operators and calculating energy quantization in various systems, which deepened their understanding of these core concepts.

Overall, the workshop not only reinforced participants' understanding of foundational principles but also provided insights into the unique behaviors of quantum systems, fostering critical thinking and curiosity about the quantum realm. Interactive exercises allowed students to apply quantum mechanics principles effectively. Group work helped students learn from each other, enhancing their collaborative skills. Participants appreciated the interactive format. Suggestions included more group activity and time for hands-on problem-solving.

### *Two Day Workshop*

## Separation and Purification Techniques

(Under DBT STAR College Scheme)

A two-day workshop was organized for a group of 46 students belonging to undergraduate Chemistry at Providence Women's College, Calicut on 23<sup>rd</sup> February and 5<sup>th</sup> March under DBT STAR college scheme. The theme of the workshop was 'Separation and Purification techniques' that is relevant in chemistry laboratory. The objective of the workshop was to introduce the students to common methodologies which are traditionally used by a synthetic chemist. Detailed theory sessions with multi-media aids were followed by hands on experimental trainings.

### **WORKSHOP CONTENTS**

- DISTILLATION
- CHROMATOGRAPHY
- FILTRATION
- CENTRIFUGATION
- CRYSTALLIZATION

## **TWO DAY WORKSHOP**

# **SEPARATION AND PURIFICATION TECHNIQUES**

**UNDER DBT STAR COLLEGE SCHEME**

**23 FEBRUARY, 05 MARCH 2024**

**Department of Chemistry  
Providence Women's College  
Kozhikode 673009, Kerala  
[www.providencecollegcalicut.ac.in](http://www.providencecollegcalicut.ac.in)**

On day 1 students were introduced to chromatographic techniques. Various chromatographic techniques such as Thin Layer Chromatography (TLC), Column Chromatography, HPLC and GC were introduced through presentations and video lectures. Different types of mobile phases, stationary phases, columns

and detectors were introduced; along with concepts of adsorption, partition, retention time, chromatogram etc. A hands-on session on the separation of curcuminoids from turmeric extract with the help of TLC was also carried out, where three different curcuminoids were separated and visually observed. Centrifugation was another topic of interest that is widely used in the separation of suspensions. The concept was easily imparted on to the participants by conducting a small laboratory session on the purification of 2,4-dinitrophenyl hydrazone during its synthesis.

Solvent extraction was explained and demonstrated with the help of the separation of the green pigment 'chlorophyll'. The aqueous extract of Tulsi leaves were treated with chloroform and water, there by separating the pigment in the organic layer.

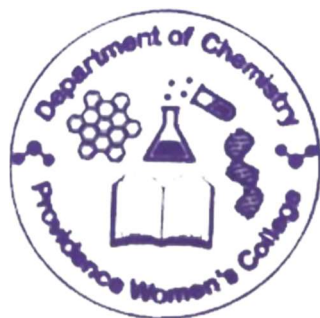

Day 2, started off with introduction to distillation of a mixture of components. Distillation is one of the most common techniques used for separating a solute in a solution and also for separating two solvents of different boiling points. Participants were made aware of concepts of evaporation and condensation followed by demonstration of simple distillation technique to separate acetone from water. Following this, separation by means of filtration was explained. Different types of filter paper and the importance of pore size were demonstrated followed by a lab session on the preparation and separation of benzoic acid using Whatman No 1 filter paper.

Purification by crystallization was handled in the afternoon session. Different crystal forms and shapes were explained, along with a practical session on crystallization of benzoic acid from an aqueous solution. Formation of white needle-like crystals of benzoic acid was indeed a thrilling experience for the participants.

The participants were given handouts and lecture notes. Overall, the audience were given an insight into the purification and separation methods that are routinely used in a chemistry laboratory. Feedback of participants on the workshop was taken.

## Department of Chemistry, Providence Women's College

### Two Day Workshop

## Instrumental Techniques

(Under DBT STAR College Scheme)

Instrumental methods of analysis are a vital part of any chemistry laboratory. Right from very small instruments such as pH meter and UV-Vis spectrophotometer to the highly sophisticated instruments like SEM and NMR spectrometer, the variety of instruments used for chemical analysis are numerous. In order to introduce the students to this ever-growing field of analytical instruments, a workshop was organized by the Department of Chemistry, Providence Women's College, Calicut on 27th and 29th February 2024. Forty-six undergraduate students of the Chemistry stream participated in the workshop. A detailed presentation on the various analytical techniques that are widely used in the laboratory along with the recent developments in this field was given on the commencement session.

**TWO DAY HANDS-  
ON SKILL  
TRAINING**

# INSTRUMENTAL TECHNIQUES

Department of Chemistry  
Providence Women's College  
Kozhikode 673009, Kerala  
[www.providencecollegecalicut.ac.in](http://www.providencecollegecalicut.ac.in)

### PRINCIPLE AND HANDS-ON TRAINING

- Potentiometer
- pH meter
- Refractometer
- Conductivity and TDS meter
- Water Analyzer

### RESOURCE PERSON

**Dr. Ann Jasmine Jose**  
Former Research Fellow  
ICAR-Indian Institute of  
Spices Research,  
Kozhikode, Kerala

Conductometric titrations are key in the estimation of ionic strength of solution in volumetric analysis. When compared to the estimations using indicators, accuracy of end point can be assured by means of conductometric titrations. The first session on Day-1 was on conductometric titrations. The lecture was followed by a brief hands-on session for the estimation

of the strength of hydrochloric acid using sodium hydroxide. Graphical method for the calculation of endpoint was discussed. Conductivity meters may also be used for measuring the amount of total dissolved solids (TDS) of a solution which in turn determine the overall health of water bodies.

pH is the aspect of the determining the acidity or alkalinity of a solution by measuring the difference in electrical potential between a pH electrode and a reference electrode. The features of the Combined Glass Electrode were demonstrated to the participants followed by a hands-on session for the calibration of pH meter and measurement of pH of various laboratory reagents. The participants were also educated about the numerous applications of pH measurement such as paper and pulp industry, water quality, soil quality, food industry, healthcare etc.

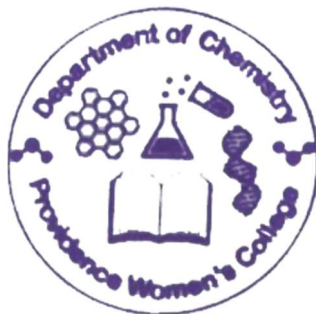

The last session on Day-1 was on potentiometry, which is a widely used tool in analytical chemistry to find the concentration of a solute in solution. The various electrodes used in potentiometric titration were elaborated. Application of potentiometer to calculate the endpoint of a redox titration by determining the potential difference occurring during the titration was demonstrated.

Refractometry; which is used for analyzing the purity and composition of a substance/liquid is an important parameter in many foods and beverages industry as well as in water quality analysis. A hand-on session was conducted on water samples containing different solutes to demonstrate the variation in RI with respect to the nature of solute. Further, the application of 'Water Analyser' to evaluate several water quality parameters were demonstrated. Water quality is determined by a number of physical and chemical parameters such as pH, TDS, DO, turbidity, conductivity, colour etc. These parameters could easily be measured from the Water Analyser so that quality of potable water as well as recycled water may be verified.

During this two-day workshop on Instrumental Techniques, the participants were familiarized with the wonderful opportunity of chemical analysis using instrumental methods. The feedback on the workshop was very positive and students were indeed excited to have hands-on training on several instruments that they are familiar only through textbooks.

**Report on Yoga Day observance**

**Date: 05/07/2023**

Yoga Day is celebrated annually on June 21<sup>st</sup> and the main purpose of this day is to spread awareness about the benefits of yoga and meditation world wide.

As a part of Yoga day the Department of Business Administration had invited Rajan Malayil Sir to deliver a speech on the importance of yoga day.

Mr. Rajan Malayil gave an enlightening talk on how yoga helps in stress management .In his talk he stated that stress is due to external pressure
