

PROVIDENCE WOMEN'S COLLEGE AUTONOMOUS

(Affiliated to the University of Calicut)

B.A. ECONOMICS HONOURS (MAJOR, MINOR AND GENERAL FOUNDATION COURSES)

SYLLABUS

w.e.f. 2024 admission (CUFYUGP Regulations 2024)

BOARD OF STUDIES IN ECONOMICS

PROVIDENCE WOMEN'S COLLEGE (AUTONOMOUS), KOZHIKODE, KERALA

Sl no	Position	Name
1	Chairman	Dr. K T Vidya, HoD
2	Entire Faculty	Dr. Sr Sheeba Andrews Ms Aneena Elsa Antony
3	Two subject experts from outside the parent university, nominated by the academic council	Dr Sunitha S, Associate Professor and Head, Department of Humanities, Arts and Social sciences, National Institute of Technology, Calicut, sunitha@nitc.ac.in Dr. Rajesh K Assistant Professor and Head, Department of Business and Management Studies, School of Management and Entrepreneurship, Kerala University of Fisheries and Ocean Studies (KUFOS), Kochi. drrajeshk@kufos.ac.in
4	Expert recommended by the principal and nominated by the VC	Dr. Shabeer K P, Associate Professor, Department of Economics, Government College, Kodencherry, Kozhikode. kp.shabeer78@gmail.com
5	Representative from industry/ corporate sector/ allied area relating to placement	Arun Kumar, Senior HR Manager, Happiest mind technologies, Bangalore. <u>arunpc@happiestminds.com</u>
6	Post graduate meritorious alumnus	Radeena D N, Assistant Professor, Department of Economics, Government Arts and Science College, Kozhikode. dnradeena@gmail.com

CONTENTS

1.	Course Structure for pathways	5
2.	Evaluation Scheme	23
3.	Major Courses	36
4.	Minor courses	199

PROGRAMME OUTCOMES (PO):

At the end of the graduate programme at Providence Women's College (Autonomous), a student would:

	Knowledge Acquisition:
PO1	Demonstrate a profound understanding of knowledge trends and their impact on the
	chosen discipline of study.
	Communication, Collaboration, Inclusiveness, and Leadership:
PO2	Become a team player who drives positive change through effective communication,
	collaborative acumen, transformative leadership, and a dedication to inclusivity.
	Professional Skills:
PO3	Demonstrate professional skills to navigate diverse career paths with confidence and
	adaptability.
	Digital Intelligence:
PO4	Demonstrate proficiency in varied digital and technological tools to understand and
	interact with the digital world, thus effectively processing complex information.
	Scientific Awareness and Critical Thinking:
PO5	Emerge as an innovative problem-solver and impactful mediator, applying scientific
103	understanding and critical thinking to address challenges and advance sustainable
	solutions.
	Human Values, Professional Ethics, and Societal and Environmental Responsibility:
PO6	Become a responsible leader, characterized by an unwavering commitment to human
100	values, ethical conduct, and a fervent dedication to the well-being of society and the
	environment.
	Research, Innovation, and Entrepreneurship:
PO7	Emerge as a researcher and entrepreneurial leader, forging collaborative partnerships
	with industry, academia, and communities to contribute enduring solutions for local,
	regional, and global development.

PROGRAMME SPECIFIC OUTCOMES (PSO):

At the end of the BA Economics Honours programme at Providence Women's College (Autonomous) , a student would:

PSO1	Understand basic concepts of economics
PSO2	Examine the socio-economic problems and find out the strategies to overcome these problems through community engagement
PSO3	Achieve organizational, management and leadership skills
PSO4	Acquire skills to evaluate contemporary socio-economic issues by accessing information from various sources and analyzing the collected information using software

PSO5	Understand diverse needs of the marginalized segments of the society and equip them
1303	to engage in endeavours leading to their emancipation
PSO6	Be able to inculcate ethical values and to avoid unethical practices such as plagiarism,
	misrepresentation of data and violation of intellectual property rights

PSO7	Apply analytical thinking to various economic phenomena, including analysis and evaluation of economic policies, practices, evidences, arguments, claims and beliefs
PSO8	Develop appropriate skills and knowledge to address the real world economic issues in familiar and unfamiliar contexts
PSO9	Formulate appropriate and relevant research questions, develop methodology and tools for data collection, presentation and analysis, and predict cause-effect relationships to deal with problems and situations to be solved through innovative practices

To continue to study Economics in semesters 7 and 8, batch B1(A2) needs to earn additional 15 credits in Economics to make the total credits of 68. Suppose this condition is achieved, and the student of batch B1(A2) proceeds to the next semesters to study Economics. The course structure in semesters 7 and 8 is the same as for pathways 1 - 4, except that the number of the core and elective courses is in continuation of the number of courses in the two categories completed at the end of semester 6, taking into account the number of courses in Economics taken online to earn the additional 15 credits.

CREDIT DISTRIBUTION FOR BATCH B1(A2) IN PATHWAY 5: DOUBLE MAJOR

EVALUATION SCHEME

- 1. The evaluation scheme for each course contains two parts: internal evaluation (about 30%) and external evaluation (about 70%). Each of the Major and Minor courses is of 4-credits. It is evaluated for 100 marks, out of which 30 marks is from internal evaluation and 70 marks, from external evaluation. Each of the General Foundation course is of 3-credits. It is evaluated for 75 marks, out of which 25 marks is from internal evaluation and 50 marks, from external evaluation.
- **2.** The 4-credit courses (Major and Minor courses) are of two types: (i) courses with only theory and (ii) courses with 3-credit theory and 1-credit practical.
 - In 4-credit courses with only theory component, out of the total 5 modules of the syllabus, one open-ended module with 20% content is designed by the faculty member teaching that course, and it is internally evaluated for 10 marks. The internal evaluation of the remaining 4 theory modules is for 20 marks.
 - In 4-credit courses with 3-credit theory and 1-credit practical components, out of the total 5 modules of the syllabus, 4 modules are for theory and the fifth module is for practical. The practical component is internally evaluated for 20 marks. The internal evaluation of the 4 theory modules is for 10 marks.
- **3.** All the 3-credit courses (General Foundational Courses) in Economics are with only theory component. Out of the total 5 modules of the syllabus, one open-ended module with 20% content is designed by the faculty member teaching that course, and it is internally evaluated for 5 marks. The internal evaluation of the remaining 4 theory modules is for 20 marks.
- **4.** The students can write the external examination in Economics either completely in English or in Malayalam.

Sl. No.	Nature o	of the Course		ation in Marks of the total)	External Exam	Total Marks
			Open-ended module / Practical	On the other 4 modules	on 4 modules (Marks)	
1	4-credit course	only theory (5 modules)	10	20	70	100
2	4-credit course	Theory (4 modules) + Practical	20	10	70	100
3	3-credit course	only theory (5 modules)	5	20	50	75

1. MAJOR AND MINOR COURSES

1.1. INTERNAL EVALUATION OF THEORY COMPONENT

Sl. No.	Components of Internal Evaluation of Theory	Internal Marks for the Theory Part of a Major / Minor Course of 4-credits					
	Part of a Major / Minor Course	Theory	Only	Theory -	+ Practical		
		4 Theory	Open-ended	4 Theory	Practical		
		Modules	Module	Modules			
1	Test paper/	10	4	5	-		
	Mid-semester Exam						
2	Seminar/ Viva/ Quiz	6	4	3	-		
3	Assignment	4	2	2	-		
		20	10	10	20*		
	Total	30)	30			

^{*}Refer the table in section 1.2 for the evaluation of practical component

1.2. EVALUATION OF PRACTICAL COMPONENT

The evaluation of practical component in Major and Minor courses is completely by internal evaluation.

- Continuous evaluation of practical by the teacher-in-charge shall carry a weightage of 50%.
- The end-semester practical examination and viva-voce, and the evaluation of practical records shall be conducted by the teacher in-charge and an internal examiner appointed by the Department Council.
- The process of continuous evaluation of practical courses shall be completed before 10 days from the commencement of the end-semester examination.
- Those who passed in continuous evaluation alone will be permitted to appear for the endsemester examination and viva-voce.

The scheme of continuous evaluation and the end-semester examination and viva-voce of practical component shall be as given below:

Sl. No.	Evaluation of Practical Component	Marks for	Weightage
	of Credit-1 in a Major / Minor Course	Practical	
1	Continuous evaluation of practical/ exercise	10	50%
	performed in practical classes by the students		
2	End-semester examination and viva-voce to be	7	35%

	conducted by teacher-in-charge along with an				
	additional examiner arranged internally by the				
	Department Council				
3	Evaluation of the Practical records submitted for the	3	15%		
	end semester viva-voce examination by the teacher-				
	in-charge and additional examiner				
	Total Marks	20			

1.3. EXTERNAL EVALUATION OF THEORY COMPONENT

External evaluation carries 70% marks. Examinations will be conducted at the end of each semester. Individual questions are evaluated in marks and the total marks are converted into grades by based on 10-point grading system (refer section 5).

PATTERN OF QUESTION PAPER FOR MAJOR AND MINOR COURSES

Duration	Туре	Total No. of Questions	No. of	Marks for	Ceilin
			Questions to be	Each	g of
			Answered	Question	Marks
2 Hours	Short Answer	10	8 – 10	3	24
	Paragraph/ Problem	8	6 – 8	6	36
	Essay	2	1	10	10
Total Marks					70

2. INTERNSHIP

- All students should undergo Internship of 2-credits during the first six semesters in a firm, industry or organization, or training in labs with faculty and researchers of their own institution or other Higher Educational Institutions (HEIs) or research institutions.
- Internship can be for enhancing the employability of the student or for developing the research aptitude.
- Internship can involve hands-on training on a particular skill/ equipment/ software. It can be a short project on a specific problem or area. Attending seminars or workshops related to an area of learning or skill can be a component of Internship.
- A faculty member/ scientist/ instructor of the respective institution, where the student does the Internship, should be the supervisor of the Internship.

2.1. GUIDELINES FOR INTERNSHIP

1. All students shall undergo Internship or Apprenticeship in a firm, industry or organization, or training in labs with faculty and researchers of their own institution or other Higher Educational Institutions (HEIs) or research institutions.

- 2. For an internship, one credit of Internship means two-hour engagement per week. Accordingly, in a semester of 15 weeks' duration, two credits in this course is equivalent to 60 hours of engagement.
- 3. The students involved in the internship may continue their internship subject to the condition that his/her academic credits do not get affected in terms of attendance and other assignments. If the need arises, students may also have an opportunity to make use of summer & winter breaks for extending their learning from internships.

4. The internship aims to impart:

- The students should have an understanding and ability to develop solutions for real-life problems.
- The students will be made aware of the research ethics, professional accountability, conduct and will be able to practice the research ethics and appropriate skills in his/her own research work.
- The student will be able to enhance academic productivity by developing writing and reading skills and can make contributions towards social and economic issues.
- The intern can possess an attitude and skill of adaptability and flexibility for new challenges at organizational and individual level with a mindset of teamwork and collaborations.
- To increase the likelihood of securing future employment and to explore and clarify carrier goals.
- To develop a strong work ethics, time management and professionalism in a professional environment.

5. Role of Internship Coordinator

- An internship coordinator is a teacher, who will be nominated by the Department Council (DC) for monitoring and supervising the student during the internship duration. This person will be nominated at the start of the academic year for each batch.
- Internship Supervisor from the host institute should monitor the regularity of the intern at his/her workplace. On the completion of internship, the student should submit the project report in the prescribed format along with internship completion certificate issued by Internship Supervisor/authority from host organization. The project report shall be evaluated by faculty member delegated by the department council.
- Students can choose following organizations and mentor from HEIs/research organizations/registered industries/registered media organizations/ and companies/registered retail service providers/R&D labs and centres. They can also opt

Sl. No.	Components of Evaluation of Internship	Marks for	Weightage
		Internship	

Cooperative Organizations/Banking and nonbanking organizations/Insurance companies/Stock Broking Companies/Microfinance Institutions/Other national and international reputed institutions/libraries in HEIs and registered under library council /NGOs/certified farmers/plantations/local self-governing bodies/ outside India experts working at the international level, Organizations under State Government/Central Government, elected representatives to the parliament/ state assembly. Students can also undertake an internship from national/international reputed institutions through online mode.

6. Guidelines for Internship Report

- The Internship certificate should be certified by the Head of the Institution. It should contain the Name of the Student, Name of the Internship course, Name of the Institute, Type of work done and duration of work (60 hrs).
- Internship Report should contain 3000-5000 words typed in Times New Roman, size 12,
 1.5 space, on double sides and neatly soft bound. It should be submitted to the concerned
 Department before VI Semester Exam Notification.
- The Internship Report should be in the following structure
 - a) Title page- Title of the Internship, Name and Register Number of the Student, Year, Name of the institute and name of the college and department.
 - b) Declaration
 - c) Certificate signed by the Head of the Institution (Internship Institute)
 - d) Index
 - e) Content Page Introduction, Nature of the work. Methodology, Outcome of the work ,Limitations Suggestions

2.2. EVALUATION OF INTERNSHIP

- The evaluation of Internship shall be done internally through continuous assessment mode by a
 committee internally constituted by the Department Council of the college where the student has
 enrolled for the UG Honours programme.
- The credits and marks for the Internship will be awarded only at the end of semester 6.
- The scheme of continuous evaluation and the end-semester viva-voce examination based on the submitted report shall be as given below:

			2 Credits	
1	Continuous evaluation of internship through interim	Acquisition of skill set	10	40%
2		Interim Presentation and Viva-voce	5

		Total Marks	50	

3. PROJECT

3.1. PROJECT IN HONOURS PROGRAMME

- In Honours programme, the student has the option to do a Project of 12-credits instead of three Core Courses in Major in semester 8.
- The Project can be done in the same institution/ any other higher educational institution (HEI)/ research centre/ training centre.
- The Project in Honours programme can be a short research work or an extended internship or a skill-based training programme.
- A faculty member of the respective institution, where the student does the Project, should be the supervisor of the Project.

3.2. PROJECT IN HONOURS WITH RESEARCH PROGRAMME

- Students who secure 75% marks and above (equivalently, CGPA 7.5 and above) cumulatively in the first six semesters are eligible to get selected to Honours with Research stream in the fourth year.
- A relaxation of 5% in marks (equivalently, a relaxation of 0.5 grade in CGPA) is allowed for those belonging to SC/ST/OBC (non-creamy layer)/ Differently-Abled/ Economically
- In Honours with Research programme, the student has to do a mandatory Research Project of 12-credits instead of three Core Courses in Major in semester 8.

- The approved research centres of University of Calicut or any other university/ HEI can offer the Honours with Research programme. The departments in the affiliated colleges under University of Calicut, which are not the approved research centres of the University, should get prior approval from the University to offer the Honours with Research programme. Such departments should have minimum two faculty members with Ph.D., and they should also have the necessary infrastructure to offer Honours with Research programme.
- A faculty member of the University/ College with a Ph.D. degree can supervise the research project of the students who have enrolled for Honours with Research. One such faculty member can supervise maximum five students in Honours with Research stream.
- The maximum intake of the department for Honours with Research programme is fixed by the department based on the number of faculty members eligible for project supervision, and other academic, research, and infrastructural facilities available.
- If a greater number of eligible students are opting for the Honours with Research programme than the number of available seats, then the allotment shall be based on the existing rules of reservations and merits.

3.3. GUIDELINES FOR THE PROJECT IN HONOURS PROGRAMME

AND HONOURS WITH RESEARCH PROGRAMME

1. Project can be done in topics related to Economics.

6. The various steps in project works are the following:

- 2. Project should be done individually.
- 3. Project work can be of experimental/theoretical/analytical in nature.
- 4. There should be minimum 240 hrs. of engagement from the student in the Project work in Honours programme.
- 5. There should be minimum 13 hrs./week of engagement (the hours corresponding to the three core courses in Major in semester 8) from the teacher in the guidance of the Project(s) in Honours programme and Honours with Research programme.

Wide review of a topic.
Investigation on a problem in systematic way using appropriate techniques.
Systematic recording of the work.
Reporting the results with interpretation in a standard documented form.
Presenting the results before the examiners.

- 7. A hard copy of the report should be kept for reference at the department. A soft copy of the report should be submitted in pdf format for external evaluation well in advance.
- 8. It is desirable, but not mandatory, to publish the results of the Project in a peer reviewed journal.
- 9. The project report shall have declaration from the student and certificate from the research supervisor for originality of the work, stating that the work has not been submitted for the award of any other degree/ diploma in the same institution or any other institution.
- 10. Plagiarism check report has to be incorporated in the project report after the declaration of the student
- 1 roject tudent

	Bia	
11.	The	e project proposal, institution at which the project is being carried out, and the p
	sup	pervisor should be prior-approved by the Department Council of the college where the st
	has	enrolled for the UG Honours programme.
12.	Str	ucture of the Project
		Cover Page and Front Page
		a. Title of the project
		b. Degree for which project is submitted.
		c. Name of the Candidate & University Register Number
		d. Name of the College
		e. Month and year of the project report submission
		Contents
		a. Declaration by the student
		b. Plagiarism check certificate
		c. Certificate of the supervising teacher countersigned by the head of the department.
		d. Acknowledgement.
		e. Table of Contents
		f. List of Tables
		g. List of Figures
		h. Introductory Chapter
		i. Analysis Chapters
		j. Concluding Chapter
		k. Bibliography
	1	. Appendix
		Contents of the Introductory Chapter

1. Introduction

- 2. Review of literature
- 3. Research Gap
- 4. Statement of the problem
- 5. Significance of the study
- 6. Scope of the study
- 7. Statement of objectives
- 8. Hypotheses (optional)
- 9. Methodology
 - a. Data sources
 - b. Tools of analysis (quantitative and qualitative)
 - c. Conceptual Framework-Optional (specification of terms and concepts)
- 10. Limitations of the study
- 11. Chapter outlines.
- ☐ Style of Report
 - 1. Report Length: 50 to 70 pages excluding Appendix and Certificates
 - 2. Alignment: Justify
 - 3. Font: Times New Roman
 - 4. Font size: 12
 - 5. Line spacing: 1.5
 - 6. Bibliography: APA style

3.4. EVALUATION OF PROJECT

- The evaluation of Project will be conducted at the end of the eighth semester by both internal and external modes.
- The Project in Honours programme as well as that in Honours with Research programme will be evaluated for 300 marks. Out of this, 90 marks is from internal evaluation and 210 marks, from external evaluation.
- The internal evaluation of the Project work shall be done through continuous assessment mode by a committee internally constituted by the Department Council of the college where the student has enrolled for the UG Honours programme. 30% of the weightage shall be given through this mode.
- The remaining 70% shall be awarded by the external examiner appointed by the Providence Women's College (Autonomous)
- The scheme of continuous evaluation and the end-semester viva-voce of the Project shall be as given below:

Components of Evaluation of Project	Marks for the Project	Weightage
	(Honours/	
	Honours with Research)	
Continuous evaluation of project work through	90	30%
interim presentations and reports by the		
committee internally constituted by the		
Department Council		
End-semester viva-voce examination to be	150	50%
conducted by the external examiner appointed by		
the Providence Women's College (Autonomous)		
Evaluation of the day-to-day records and project	60	20%
report submitted for the end-semester viva-voce		
examination conducted by the external examiner		
Total Marks	300	

INTERNAL EVALUATION OF PROJECT

Sl. No	Components of Evaluation of Project	Marks for the Project (Honours/ Honours with Research)
1	Skill in doing project work	30
2	Interim Presentation and Viva-Voce	20
3	Punctuality and Log book	20
4	Scheme/ Organization of Project Report	20
	Total Marks	90

EXTERNAL EVALUATION OF PROJECT

		Marks for the Project
Sl. No	Components of Evaluation of Project	(Honours/
	J	Honours with Research)
		12 credits
1	Content and relevance of the Project,	
	Methodology, Quality of analysis,	50
	and Innovations of Research	
2	Presentation of the Project	50
3	Project Report (typed copy), Log Book and References	60
4	Viva-Voce	50
Total		210
Marks		

4. GENERAL FOUNDATION COURSES

• All the General Foundation Courses (3-credits) in Economics are with only theory component.

4.1. INTERNAL EVALUATION

Sl. No.	Components of Internal Evaluation of a General	Internal Marks of a General Foundation Course of 3-credits in Economics	
	Foundation Course in Economics	4 Theory Modules	Open-ended Module
1	Test paper/ Mid-semester Exam	10	2
2	Seminar/ Viva/ Quiz	6	2
3	Assignment	4	1
		20	5
	Total		25

4.2. EXTERNAL EVALUATION

External evaluation carries about 70% marks. Examinations will be conducted at the end of each semester. Individual questions are evaluated in marks and the total marks are converted into grades by the Providence Women's College (Autonomous) based on 10-point grading system (refer section 5).

PATTERN OF QUESTION PAPER FOR GENERAL FOUNDATION COURSES

Duration	Туре	Total No. of Questions	No. of	Marks for	Ceilin
			Questions to be	Each	g of
			Answered	Question	Marks
1.5 Hours	Short Answer	10	8 – 10	2	16
	Paragraph/ Problem	5	4 – 5	6	24
	Essay	2	1	10	10
Total Marks					50

5. LETTER GRADES AND GRADE POINTS

Mark system is followed for evaluating each question.

For each course in the semester letter grade and grade point are introduced in 10-point indirect grading system as per guidelines given below. The Semester Grade Point Average (SGPA) is computed from the grades as a measure of the student's performance in a given semester. The Cumulative GPA (CGPA) is based on the grades in all courses taken after joining the programme of study. Only the weighted grade point based on marks obtained shall be displayed on the grade card issued to the students.

Sl.	Percentage of Marks	Description	Letter	Grade	Range of	Class
No.	(Internal & External		Grade	Point	Grade	
	Put Together)				Points	
1	95% and above	Outstanding	О	10	9.50 – 10	First Class
2	Above 85% and below 95%	Excellent	A+	9	8.50 – 9. 49	with Distinction
3	75% to below 85%	Very Good	A	8	7.50 - 8.49	
4	65% to below 75%	Good	B+	7	6.50 - 7.49	
5	55% to below 65%	Above Average	В	6	5.50 – 6.49	First Class
6	45% to below 55%	Average	С	5	4.50 - 5.49	Second Class
7	35% to below 45% aggregate (internal and external put together) with a minimum of 30% in external valuation	Pass	P	4	3.50 – 4.49	Third Class
8	Below an aggregate of 35% or below 30% in external evaluation	Fail	F	0	0 – 3.49	Fail
9	Not attending the examination	Absent	Ab	0	0	Fail

- When students take audit courses, they will be given Pass (P) or Fail (F) grade without any credits.
- The successful completion of all the courses and capstone components prescribed for the threeyear or four-year programme with 'P' grade shall be the minimum requirement for the award of UG Degree or UG Degree Honours or UG Degree Honours with Research, as the case may be.

6.1. COMPUTATION OF SGPA AND CGPA

$$CGPA = \frac{\sum_{of \ the \ credit \ points \ of \ all \ the \ courses \in eight \ semesters}}{Total \ credits \in eight \ semesters} (177)$$

- The SGPA and CGPA shall be rounded off to three decimal points and reported in the transcripts.
- Based on the above letter grades, grade points, SGPA and CGPA, the University shall issue the transcript for each semester and a consolidated transcript indicating the performance in all semesters.

• The following method shall be used to compute the Semester Grade Point Average (SGPA):

The SGPA equals the product of the number of credits (Ci) with the grade points (Gi) scored by a student in each course in a semester, summed over all the courses taken by a student in the semester, and then divided by the total number of credits of all the courses taken by the student in the semester.

i.e. SGPA (Si) =
$$\Sigma i$$
 (Ci x Gi) / Σi (Ci)

where Ci is the number of credits of the ith course and Gi is the grade point scored by the student in the ith course in the given semester. Credit Point of a course is the value obtained by multiplying the credit (Ci) of the course by the grade point (Gi) of the course.

$$SGPA = \frac{\sum of \ the \ credit \ points \ of \ all \ the \ courses \in asemester}{Total \ credits} \in that \ semester$$

ILLUSTRATION – COMPUTATION OF SG	GP	7.5) F	(N	N	T	Т	Δ	Т	T	P	V	1	Γ	_ (N	\mathbf{O}	T	Α	Γ R	T	[] 9			T
----------------------------------	----	-----	-----	---	---	---	---	---	---	---	---	---	---	---	----------	-----	---	--------------	---	---	-------------------	---	-------	--	--	---

Semeste	Course	Credi	Letter	Grade	Credit Point
r		t	Grade	point	(Credit x Grade)
I	Course 1	3	A	8	3 x 8 = 24
I	Course 2	4	B+	7	4 x 7 = 28
I	Course 3	3	В	6	3 x 6 = 18
I	Course 4	3	О	10	3 x 10 = 30
I	Course 5	3	С	5	3 x 5 = 15
I	Course 6	4	В	6	4 x 6 = 24
	Total	20			139
		SGI	139/20 = 6.950		

• The Cumulative Grade Point Average (CGPA) of the student shall be calculated at the end of a programme. The CGPA of a student determines the overall academic level of the student in a programme and is the criterion for ranking the students.

CGPA for the three-year programme in CUFYUGP shall be calculated by the following formula.

$$CGPA = \frac{\sum of \text{ the credit points of all the courses} \in six \text{ semesters}}{Total \text{ credits}} \in six \text{ semesters} (133)$$

CGPA for the four-year programme in CUFYUGP shall be calculated by the following formula.

Major Courses in Economics

Programme	B.A. Economics Honor	B.A. Economics Honours

2	Discussion based on statistical tools	
3	Practical Assignments	
4	Seminar	

Note: The course is divided into five modules, with four modules together having total 22 fixed units and one open-ended module with a variable number of units. There are total 48 instructional hours for the fixed modules and 12 hours for the open-ended one. Internal assessments (30 marks) are split between the open-ended module (10 marks) and the fixed modules (20 marks). The final exam, however, covers only the 22 units from the fixed modules. The 70 marks shown in the last column, distributed over the first four modules, are only for the external examination.

		Discussion based on the trends in fiscal deficit and inflation in India	3	
		A simple project for the Measurement of poverty using MRP method in a Ward of LSG	5	
		A simple project for the Measurement of Unemployment in the local territory using any one methodology	5	

Note: The course is divided into five modules, with four modules together having total 22 fixed units and one open-ended module with a variable number of units. There are total 48 instructional hours for the fixed modules and 12 hours for the open-ended one. Internal assessments (30 marks) are split between the open-ended module (10 marks) and the fixed modules (20 marks). The final exam, however, covers only the 22 units from the fixed modules. The 70 marks shown in the last column, distributed over the first four modules, are only for the external examination.

Report Based on Study Tour: A study tour is recommended because it may add direct experience to learners about different economic culture of the country. All the students need to prepare a report of the tour that includes the places they visited, its importance etc and submit it to the Head of the Department soon after the completion of the tour.

Programme	B.A. Economics Honours							
Course Title	ELEMENTARY ECONOMETRICS							
Type of Course	Major							
Semester	VI							
Academic Level	300-399							
Course Details	Credit	Credit Lecture Tutorial Practical Total						
	per week per week per week Hours							
	4	3	-	2	75			
Pre-requisites	1. Analy	tical Tools for	or Economic	s I of 200-299	level			
	2. Analy	tical Tools fo	or Economics	II of 200-299	level			
Course Summary	This course introduc	ces students	to the econ-	ometric meth	ods used to			
	conduct empirical analysis in Economics. The course is designed to							
	provide the students with the basic econometric techniques needed to							
	undertake applied re-	search projec	ets. It also pi	ovides the ba	ase for more			
	advanced optional co	urses in econ	ometrics.					

CO	CO Statement	Cognitive Level*	Knowledge Category#	Evaluation Tools used
CO 1	To Understand the methodology of Econometrics	U	C	Instructor-created exams / Quiz
CO 2	To analyse linear models using ordinary least squares and make inferences about population parameters	An	Р	Practical Assignment
CO 3	To evaluate the elasticity, growth rates etc using econometric models	E	P	Seminar Presentation / Practical sessions
CO 4	To detect econometric problems and apply remedial measures	Е	Р	Instructor-created exams / Home Assignments
CO 5	Demonstrate econometric models and analysing skills by applying the acquired knowledge to address economic phenomena in the contemporary world. Forecasting using estimated models	Ap, C	F	Practical, Writing assignments

^{* -} Remember (R), Understand (U), Apply (Ap), Analyse (An), Evaluate (E), Create (C)

^{# -} Factual Knowledge(F) Conceptual Knowledge (C) Procedural Knowledge (P) Metacognitive Knowledge (M)

DETAILED SYLLABUS:

Modul e	Uni t	Content	Hrs	Marks
I		Basic Principles of Economics	5	8
	1	What is Econometrics? Methodology of Econometrics	2	
	2	Uses of Econometrics	1	
	3	Limitations of Econometrics	1	
	4	The concept of PRF -Significance of stochastic error term-The SRF	1	
II		Simple linear regression model: Two variable case	12	19
	5	Ordinary least square estimation of a linear model	2	
	6	Assumptions underlying the method of least squares	1	
	7	Properties of estimators - The Gauss Markov theorem	2	
	8	Goodness of fit	2	
	9	Testing of hypothesis - Confidence intervals	3	
	10	Forecasting	2	
III		Other functional forms of regression models	12	19
	11	Multiple linear regression model - Extension of the single explanatory variable case to a multivariate model(specification, interpretation of regression coefficients)	2	
	12	Multiple linear regression model- test of significance of partial regression coefficients, adjusted R ²	2	
	13	Regression through the origin	1	
	14	Introducing non-linearity through functions of explanatory variables -Double log Model	1	
	15	Semilog models	1	
	16	Reciprocal model	1	
	17	Dummy Variable regression models - ANOVA & ANCOVA models- specification & interpretation of regression coefficients	3	
	18	Dummy variable trap	1	
IV	Vi	olation of classical assumptions: consequences, detection and remedies	16	24
	19	Multicollinearity- Nature, Practical Consequences, Detection methods: using R2 and t values, auxiliary regressions, Remedial measures: combining cross sectional and time series, transformation of variables	4	
	20	Heteroscedasticity – Nature, Consequences, Detection methods: Park test, Spearman's rank correlation test, White's general heteroscedasticity test, Remedial measures: WLS method, using plausible assumptions about heteroscedasticity pattern	4	
	21	Autocorrelation - Nature, Consequences, Detection methods: the Run's test, Durbin Watson d test, Remedial measures: GLS method	4	
	22	Specification Errors – Types, Consequences of underfitting and overfitting of model, Detection methods: DW d statistic, Ramsey's RESET test, Lagrange multiplier test	4	

V	Open Ended Module	30	
	Estimation of economic functional relationships using cross section		
	data, interpretation and forecasting		
	(Excel package can be used for doing the regression)		

Note: The syllabus has five modules. There are 22 units in the first four modules composed of the theory topics. There are 45 instructional hours for the first four modules and 30 hrs for the final one. Module V is an open module designed to equip students with practical skill to analyse updated information on the contemporary world. The 10 marks for the evaluation of practical will be based on Module V. The end-semester examination for the theory part will be based on the 22 units in the first four modules.

IV		Regional development models	9	14
	20	Growth Pole theory – François Perroux	3	
	21	Gunnar Myrdal- Theory of cumulative causation	3	
	22	Friedman- Core Periphery theory	3	
V		Open ended module	30	
		Discussion Developing experience of third world economies		
		Practical Assignments Study about the relevance of theories		
		in explaining the development experience of third world		
		countries		
		Seminar present the student's understanding of development		
		indicators using a particular economy's experience.		

Note: The syllabus has five modules. There should be total 22 units in the first four modules together, composed of the theory topics. The number of units in the last module can vary. There are 45 instructional hours for the first four modules and 30 hrs for the final one. Module V is designed to equip students with practical skills. The 20 marks for the evaluation of practical will be based on Module V. Internal assessments (30 marks) are split between the practical module (20 marks) and the first four modules (10 marks). The end-semester examination for the theory part will be based on the 22 units in the first four modules. The 70 marks shown in the last column, distributed over the first four modules, are only for the external examination.

DETAILED SYLLABUS:

Modul e	Unit	Content	Hrs	Marks
I		Balance of Payment and Balance of Trade	10	15
	1	Balance of trade & Balance of Payment: Accounts in BOP	2	
	2	Equilibrium and Disequilibrium is BoP and Measures to correct BoP	3	
	3	Marshall Lerner Condition, J curve effect and Absorption approach	3	
	4	Foreign Trade Multiplier	2	
II		Foreign Exchange Rate	11	17
	5	Evolution and Functions of foreign exchange market	2	
	6	Theories of Exchange Rate Determination-Mint Parity, Purchasing Power Parity and Balance of Payment theory	2	
	7	Exchange Rate systems - fixed, flexible and Managed Floating	2	
	8	Different Types of Transactions in foreign Exchange Market	2	
	9	IMF and International Liquidity management.	3	
III	Ap	proaches to Balance of Payment and Exchange Rate	15	24
	10	Monetary Approach to Balance of Payment	2	
	11	Portfolio Balance Approach	2	
	12	Exchange Rate overshooting	1	
	13	Internal and External Balance - Swan model	2	
	14	IS- L M- BP Model	2	
	15	Currency substitution Model	2	
	16	Exchange rate volatility	2	
IV	17	Redux and Target zone Models	9	14
1 1	Ba	lance of payment and Forex Management in India	9	14
	18	Direction and composition of Balance of payments in India	2	
	19	BOP crisis in India	2	
	20	Currency Convertibility	1	
	21	Exchange control Measures in India	2	
	22	Foreign Exchange Management in India- Fiscal, monetary and trade policy.	2	
V		Open ended module	30	
		Discussion - International Monetary System –Present and Future		
		Practical Assignments 1) Study about the recent trends of balance of payments in developing countries with special reference to India. OR 2) Compare and contrast BoP Account Statement of India and USA.		
		Seminar Discuss the role of IMF as a global financial controller.		

Note: The syllabus has five modules. There should be total 22 units in the first four modules together, composed of the theory topics. The number of units in the last module can vary. There are 45 instructional hours for the first four modules and 30 hrs for the final one. Module V is designed to equip students with practical skills. The 20 marks for the evaluation of practical will be based on Module V. Internal assessments (30 marks) are split between the practical module (20 marks) and the first four modules (10 marks). The end-semester examination for the theory part will be based on the 22 units in the first four modules. The 70 marks shown in the last column, distributed over the first four modules, are only for the external examination.

	17	A heterodox perspective on the micro-macro link: The whole is more than the sum of its parts	3	
	18	Relations matter: There is real novelty	2	
	19	Aggregation and Welfare	2	
	20	Systemism as a general frame work	2	
	21	Systemism and heterodoxy - key ideas and concepts	2	
	22	Heterodox economics in a systemist framework	2	
V		Open Ended Module	12	
		Discussion based on Feminist Economics, Ecological Economics and Radical Economics		
		Seminars to discuss and evaluate the state of affairs and policy	_	
		related to women and ecology.		_
		Group discussion and Assignments to understand radical economics.		

Note: The course is divided into five modules, with four modules together having total 22 fixed units and one open-ended module with a variable number of units. There are total 48 instructional hours for the fixed modules and 12 hours for the open-ended one. Internal assessments (30 marks) are split between the open-ended module (10 marks) and the fixed modules (20 marks). The final exam, however, covers only the 22

units from the fixed modules. The 70 marks shown in the last column, distributed over the first four modules, are only for the external examination.

DETAILED SYLLABUS:

Modul e	Unit	Content	Hrs	
I		Introduction to Qualitative Research in Economics	16	22
	1	Overview of Research Methods – Quantitative and qualitative strength and limitations of Qualitative research.	2	
	2	3		
	3	Review of literature	2	
	4	Formulation of research problem - Identification conceptualization and operationalization of the problem	3	
	5	Research Design in Qualitative Research - Defining research questions and objectives	3	
	6	Choosing appropriate qualitative research designs - Case study, grounded theory, ethnography, and phenomenology	3	
II	Sam	pling and Data Collection Techniques in Qualitative Research	12	18
	7	Sampling methods: Purposeful sampling technique- Snowball sampling - Critical case sampling-Theoretical sampling.	3	
	8	Data collection methods: In-Depth Interviews - Focus Group Discussions - Observation	3	
	9	Document Analysis -Examining primary and secondary sources	2	
	10	Multi method approach	2	
	11	Case study approach	2	
III	Data	Analysis in Qualitative Research	10	15
	12	Techniques: Thematic analysis - Content analysis - Constant comparative analysis	2	
	13	Coding and categorization- Discourse analysis- Narrative analysis.	2	
	14	Scaling Techniques: Likert Scale – Thurstone scale – Guttman scale	2	
	15	Introducing Qualitative Data Software	2	
	16	Interpretation and Writing	2	
	17	Hermeneutics. The role of theory in qualitative research in economics	2	
IV	Adva	nced Topics in Qualitative Research in Economics	10	15
	18	Recent trends and issues in Qualitative research	2	
	19	Power Dynamics And reflexivity	2	
	20	Big data and qualitative Research methods	2	
	21	Ethical considerations specific to qualitative research.	2	
	22	Evaluating the impact of economic policies	2	

V	Open	ended module	12	
		Discussion: Identify a research paper (Qualitative research		
		work)		
		Practical Assignments: Preparation of interview Shedule/		
		questionnaire		
		Seminar: Review a research paper and present it		

Note: The course is divided into five modules, with four modules together having total 22 fixed units and one open-ended module with a variable number of units. There are total 48 instructional hours for the fixed modules and 12 hours for the open-ended one. Internal assessments (30 marks) are split between the open-ended module (10 marks) and the fixed modules (20 marks). The final exam, however, covers only the 22 units from the fixed modules. The 70 marks shown in the last column, distributed over the first four modules, are only for the external examination.

	2	Develop and present a comprehensive economic		
	2	Develop and present a comprehensive economic research paper.		

Note: The course is divided into five modules, with four modules together having total 22 fixed units and one open-ended module with a variable number of units. There are total 48 instructional hours for the fixed modules and 12 hours for the open-ended one. Internal assessments (30 marks) are split between the open-

ended module (10 marks) and the fixed modules (20 marks). The final exam, however, covers only the 22 units from the fixed modules. The 70 marks shown in the last column, distributed over the first four modules, are only for the external examination.

	20	Linking education with the economy	2	
	21	Educational planning	2	
	22	Manpower planning – Features and techniques of manpower planning	3	
		and forecasting		
V		Open Ended Module	12	
		Discussion based on the primary, secondary, higher secondary and		
		higher education scenario of India and Kerala		
		Practical Assignments on Initiatives for educational development		
		Seminar on the new education policy and its impacts on the national		
		and regional economy		

Note: The course is divided into five modules, with four modules together having total 22 fixed units and one open-ended module with a variable number of units. There are total 48 instructional hours for the fixed modules and 12 hours for the open-ended one. Internal assessments (30 marks) are split between the open-ended module (10 marks) and the fixed modules (20 marks). The final exam, however, covers only the 22 units from the fixed modules. The 70 marks shown in the last column, distributed over the first four modules, is only for the external examination.

CO4	To evaluate the challenges and opportunities for each sector in the Indian economy.	Ap	F	Instructor- created exams / Home Assignments
CO5	To encourage critical thinking on emerging sectors and open-ended discussions on their potential contributions.	Ap	F	Writing assignments

DETAILED SYLLABUS:

Module	Unit	Content	Hrs	Marks
I		8	12	
	1	Overview of the primary, secondary, and tertiary sectors	3	
	2	Historical perspective of the sectoral composition in the Indian economy	3	
	3	Importance of analysing sectoral contributions for	2	

^{* -} Remember (R), Understand (U), Apply (Ap), Analyse (An), Evaluate (E), Create (C) # - Factual Knowledge(F) Conceptual Knowledge (C) Procedural Knowledge (P) Metacognitive Knowledge (M)

		economic planning			
II		Performance of Primary Sector	15	22	
	4	Indian agriculture- Role nature and cropping pattern	2		
	5 Trend in agriculture production and productivity				
	6	2			
	7	2			
	8	Agriculture marketing and finance	2		
	9	Agriculture price policy	2		
	10	Agriculture subsidy and food security in India	2		
	11	Problems faced by Indian agriculture	2		
III		Performance of the Industrial sector	15	22	
	12	Performance of Industries during Plan period	2		
	13	Some basic industries in India- iron and steel, jute, textile,	2		
		sugar, cement			
	14	Role of small scale and cottage industries- Problems faced	3		
		by cottage industries			
	15	Recent industrial policies	2		
	16	Public sector undertakings – role, performance, and problems	2		
	17	Privatisation and disinvestment programmes in India	2		
	18	Problems faced by Indian industries	2		
IV		Performance of the Service sector	10	14	
	19	Growth and contribution of service sector in India	3		
	20	Service sector and employment	2		
	21	Information and communication technology	2		
	22	Foreign trade in services	3		
V		Open Ended Module	12		
	1	Discussion based on the new and emerging sectors in the			
		Indian economy			
	2	Assignments on role of different sectors in Kerala			
		economy			
	3	Seminar on contribution of different sectors to National			
		income in the last two years			
	4	Critically evaluate the performance of MSMEs			
	5	Debate on sustainability of service Led Growth			

Note: The course is divided into five modules, with four modules together having total 22 fixed units and one open-ended module with a variable number of units. There are total 48 instructional hours for the fixed modules and 12 hours for the open-ended one. Internal assessments (30 marks) are split between the open-ended module (10 marks) and the fixed modules (20 marks). The final exam, however, covers only the 22 units from the fixed modules. The 70 marks shown in the last column, distributed over the first four modules, are only for the external examination.

Program	B.A. Economics Honours						
Course Title	KNOWLEDGE EC	KNOWLEDGE ECONOMY IN INDIA					
Type of Course	Minor						
Semester	III						
Academic Level	200-299						
Course Details	Credit	Lecture	Tutorial	Practical	Total		
		per week	per week	per week	Hours		
	4	4	-	ı	60		
Pre-requisites	Economics Course of	100-199 lev	el				
Course Summary	The course emphasiz	es the impact	of knowledg	ge economy or	n economic		
	development, by analyzing the historical evolution of knowledge						
	economy in India, im	portance of h	numan capita	l in knowledg	e economy,		
	and the role of innova	ation in drivi	ng the knowl	edge economy	y.		

COURSE OUTCOMES (CO):

CO	CO Statement	Cognitive Level*	Knowledge Category#	Evaluation Tools used
CO 1	Understand the concept and characteristics of the knowledge economy.	U	С	Instructor- created exams / Quiz
CO 2	Analyze the impact of brain drain and brain gain on India's knowledge economy.	An	P	Assignment / Seminar Presentation
CO 3	Evaluate the importance of intellectual property rights in fostering innovation.	Е	Р	Seminar Presentation / Group Discussion
CO 4	Apply knowledge economy concepts to real-world scenarios.	Ap	Р	Practical Assignments / Case Studies
CO 5	Demonstrate critical thinking and problem-solving skills by applying the acquired knowledge to address complex economic challenges in the contemporary world.	Ap	Р	Writing assignments/ Survey / Seminar/ presentation/ Group Discussion

^{* -} Remember (R), Understand (U), Apply (Ap), Analyse (An), Evaluate (E), Create (C)

^{# -} Factual Knowledge(F) Conceptual Knowledge (C) Procedural Knowledge (P) Metacognitive Knowledge (M)

Module	YLLAB Unit	Content	Hrs	Marks
	Omt		10	
Ι	1	Introduction to the Knowledge Economy	10	15
	2	Definition and characteristics of the knowledge economy	2	
		Evolution of the knowledge economy		
	3	Distinction between traditional and knowledge-based	2	
	4	Clab al transita and drivers of the lynewis decreases	3	
	4	Global trends and drivers of the knowledge economy		
	5	The role of knowledge in economic development.	2	2.
II		The Knowledge Economy in India	18	26
	6	Emergence and growth of the knowledge economy in India	4	
	7	Key sectors of the Indian knowledge economy: IT, IT-	4	
		enabled		
		services, biotechnology, pharmaceuticals, education, R&D		
	8	The role of government in promoting the knowledge	2	
		economy	_	
	9	Challenges and opportunities for the Indian knowledge	2	
		economy		
	10	Impact of the knowledge economy on employment patterns	3	
		and social dynamics in India.		
	11	India's position in the global knowledge economy and its	3	
		competitiveness.		
III		Human Capital and the Knowledge Economy	8	12
	12	The importance of human capital for the knowledge	2	
		economy		
	13	Education and skill development in India	2	
	14	Brain drains and brain gain in the Indian context	2	
	15	Strategies for developing a skilled workforce for the	2	
		knowledge economy		
	16	Policies and initiatives promoting education and human	2	
		capital development in India.		
IV		Innovation and the Knowledge Economy	12	17
	17	Definition of Innovation and Knowledge	2	
	18	The role of innovation in 5 key capabilities or 'E's: Enablers,	2	
		Education,		
		Engagement, Entrepreneurship and Empowerment,		
		Environment.		
	19	The Indian innovation ecosystem: startups, incubators,	2	
		accelerators		
	20	Intellectual property rights and innovation	2	
	21	The role of innovation in driving the knowledge economy	1	
	22	Challenges and opportunities related to IPR in India.	1	
V		Open ended module	12	
·	1	Seminar on Building a Sustainable Knowledge Economy in		
	•	India:		
		Balancing Growth with Equity		
	2	Discussion about the Future of the Knowledge Economy in		
	2	India		

	Skill Development Mission and propose improvements to enhance its effectiveness in training and upskilling the workforce for the knowledge economy.	
4	Critically evaluate the Inequality and inclusivity in the knowledge economy.	
5	Organize a debate on Emerging trends in the knowledge economy	

Note: The course is divided into five modules, with four modules together having total 22 fixed units and one open-ended module with a variable number of units. There are total 48 instructional hours for the fixed modules and 12 hours for the open-ended one. Internal assessments (30 marks) are split between the open-ended module (10 marks) and the fixed modules (20 marks). The final exam, however, covers only the 22 units from the fixed modules. The 70 marks shown in the last column, distributed over the first four modules, are only for the external examination.

		Latest budget updates on ITC		
		Practical problem illustrates the importance of adhering to the conditions		
		for claiming ITC and being aware of the items for which ITC is not		
		allowed to avoid financial implications and compliance issues.		

Note: The course is divided into five modules, with four modules together having total 22 fixed units and one open-ended module with a variable number of units. There are total 48 instructional hours for the fixed modules and 12 hours for the open-ended one. Internal assessments (30 marks) are split between the open-ended module (10 marks) and the fixed modules (20 marks). The final exam,

however, covers only the 22 units from the fixed modules. The 70 marks shown in the last column, distributed over the first four modules, are only for the external examination.

DETAILED SYLLABUS:

Module	Unit	Content	Hrs	Marks
		Personal Financial Planning/Financial Literacy	10	14
	Basics	s of financial planning		
	1	Meaning of financial planning and the importance of financial planning.	1	
	2	Risk vs return (inflation risk, market risk and exchange risk).	1	
	3	Planning for the short, medium and long term.		
I	4 Introducing financial products that suit short, medium and long time horizons.		3	
	5	Short term and money market or debt instruments		
	6	Long term and asset backed investments.		
	Time	value of money		
	7	Inflation and its impact on personal financial security,		
	8	Concepts of absolute income and real income.	3	
	9	Concepts of nominal rate of interest and real rate of interest.		
	10	Principles of compounding and discounting.	2	
	10	The financial planning process	08	11
	11	The fact find or taking stock ones financial situation, identifying present provisions and shortfalls.	3	11
II	12	Setting SMART (specific, measurable, achievable,	2	
		realistic, time bound) financial goals.		
	13	Concept of diversification-putting your eggs into different baskets.	1	
	14	Physical assets like commodities (gold, silver and other precious metals) and properties.	2	
		Financial products	08	11
	15	Savings bank accounts, current account, fixed deposits, recurring deposits. Introducing and debit cards. Modes of transfers-IMPS, NEFT, RTGS, UPI.	2	
Ш	16	Bonds, debentures and other debt funds.	1	
	17	Equity market products, Risks involved in equity market investments. stocks, shares, equities, mutual funds, derivatives, options.	3	
	18	NSE, BSE, OTC Exchange of India. Stock market indices, Nifty, SENSEX, S&P, NASDAQ.	2	
		Insurance and pension products	10	14
IV	19	Insurance as a risk management device. Life insurance, (introduce various types of life products like term insurance, endowment plans,	2	
		unit-linked policies (ULIPs etc.), Riders in insurance (eg. critical illness benefit, hospitalisation benefit, permanent total disability etc.). Property and casualty insurance, health/medical insurance. Two rules of calculating life cover-multiples of salary and the inflation rule.	2	
	20	The need for retirement security. Pension products. Difference between statutory pension system and contributory pension.	2	

		National Pension system and its features. Tier I and Tier II contributions in the NPS . Investment options-active choice and auto choice.		
	21	Annuities. Difference between annuities and pensions. Various types of annuities-fixed, variable and equity linked.	2	
	22	Retirement pension policies of life insurance companies. Annuity service providers (ASP). Role of IRDAI and PFRDA as regulators.	2	
		Open Ended Module	9	
		Discussion based on the exit of governments from pension provision.		
V		Practical Assignments to create a sample personal financial plan for an individual/ family making provisions for emergency funds, savings, insurances and retirement schemes.		
		Seminar/workshop on investor awareness with a focus on stock/equity investments.
