OUR APPROACH.

As part of
International
Mother Language
day our team came
up with a unique
idea of connecting
with the world.

International Mother Language Day is a worldwide annual observance held on 21 February to promote awareness of linguistic and cultural diversity and to promote multilingualism. First announced by UNESCO on 17 November 1999, it was formally recognized by the United Nations General Assembly with the adoption of UN resolution 56/262 in 2002. Mother Language Day is part of a broader initiative "to promote the preservation and protection of all languages used by peoples of the world" as adopted by the UN General Assembly on 16 May 2007 in UN resolution 61/266,[3] which also established 2008 as the International Year of Languages.

The idea of connecting with the world was bought to vision by our department. We reached out and collaborated with people living in different corners of the world.

It was indeed our pleasure to have bought this idea and experiencing a bond where the only thing different is language.

People from all parts of the world sent wishes for our college, Providence Women's College and congratulated our department for the effort taken for the one week long celebration of International Mother Language Day from 17.02.2022 - 21.02.2022.

International Mother Language Day recognizes that languages and multilingualism can advance inclusion, and the Sustainable Development Goals focus on leaving no one behind.

OUTCOME

Our celebrations started from 17.02.2022 onwards. As Human Resource Management students this was a golden opportunity for us to connect to the rest of the world to establish a bond and knowing different cultures.

Efforts were made from our part to try our best in order to promote linguistic diversity. We were able to extend the international collaborations to countries including Saudi Arabia, Malaysia etc. for the video where people said, "My Language, My Pride" very proudly in their native language.

Though a small step the experience and lesson we received, that of team work, diversity and bond is beyond words and definitely huge.

#TeamHRM

OUR GOAL

UNESCO chooses a theme for each International Mother Language Day, and sponsors related events at its Paris headquarters. In 2008, the International Year of Languages began on International Mother Language Day. It is celebrated in Chile, Russia, the Philippines, Egypt and Canada.

As part of Digital India initiative, digitized content will be made available in the country's 22 scheduled languages and extended to India's other 234 recognized languages. Digitization began in June 2016 through the Bharatavani Project at the Central Institute of Indian Languages in Mysore, and by February 2017 content in 60 Indian languages had been made available free of charge.

Finally, all we have to say is

**"MY LANGUAGE ,
MY PRIDE."**
