

REPORT

Activity : Awareness class
No: of Students Participated: 15

On 7th July 2017, the students of the Department of Economics visited L.P school Chevarambalam and conducted an awareness class on the need for Environmental conservation. Students of the Department prepared PowerPoint presentations for the school students to make conscientise them about the importance of conserving the environment, to save water, protection of environmental resources, waste management, electricity conservation etc...The children of the adopted school were also taught to make useful upcycled items out of waste materials. The session helped the students to nurture love for environment and to get awareness about the environmental problems and conservation.
