

## REPORT

Activity: Eco-drive campaign -“Go Green”

Number of students participated:103

From June 20th to July 2nd an eco-drive campaign “Go Green” was initiated by the department of zoology – About 103 students participated in the survey in the neighborhood, on waste management and vegetable gardening. As part of the eco drive, the students visited the house and collected data based on the questionnaire prepared on the different methods adopted for the disposal of household waste. As part of the survey, details were also collected on the vegetable garden present in the homeward. The students also distributed saplings and vegetable seeds in the neighborhood.
